Eriez® Flotation Extends Sponsorship of Coalition for Energy Efficient Comminution

Erie, PA—[Eriez® Flotation](#) Global Managing Director Eric Wasmund announces Eriez has renewed its sponsorship with [Coalition for Energy Efficient Comminution \(CEEC\)](#) after recently completing a successful initial year of partnership.

CEEC CEO Alison Keogh says, “Eriez brings an exciting option to mineral processing circuits with its innovative [HydroFloat technology](#), which has the potential to significantly cut costs and boost processing efficiency.” She adds, “Commercialization of technologies such as the HydroFloat has the capability to transform the way operations manage energy, water and other resources.”

The experts at [Eriez Flotation](#) bring their unique perspective and extensive experience as leaders in coarse flotation in the phosphate and potash industries to support CEEC’s global initiatives to share energy efficient, productive mining processes to help decrease costs, reduce footprints and improve shareholder value.

Wasmund says, “Eriez Flotation has made its mark by majorly re-thinking the outdated traditional flotation process which has been utilized for over 100 years. Our [HydroFloat®](#) and [StackCell™](#) systems radically improve separation and recovery of coarse and fine particles. We are proud to bring this innovative mindset to contribute to the mission of CEEC by sharing valuable insight and exchanging ideas to propel improvements across the global mining industry.”

To learn more about Eriez Flotation’s HydroFloat and StackCell flotation technologies, visit <https://www.eriezflotation.com/flotation/>. For more information about Coalition for Energy Efficient Comminution (CEEC), go to <https://www.ceecthefuture.org/>.

About Eriez Flotation

Eriez Flotation is a world leader in advanced flotation technology and is a wholly owned subsidiary of Eriez Manufacturing Co. Eriez Flotation provides advanced testing and engineering services, sparging and column flotation equipment, and game-changing innovations in process technology such as HydroFloat® and StackCell® for the mining and mineral processing industries. For more information, visit www.eriezflotation.com or call (604) 952-2300. We can also be contacted at efdca@eriez.com.
